Degree/Course	Institution	Year of Passing	Percentage/Grade
B.E(Computer Engineering)	Rizvi College of Engineering , Mumbai University	June 19	8.11 CGPA out of 10
HSC	KC College ,Churchgate	May 15	72%
SSC	St.Xaviers High School, Fort	March 13	78.72%

RELEVANT SKILLS

- Tools : C,Java(OOP),**Python3(OOP)**,Libraries(**Numpy,Pandas,Matplotlib,Scikit-learn,Nltk,Scrapy**)), Django,Git, Sql , Html, CSS,SAP ABAP(**Alv Reports**, Smartforms, **Bapi**, **Debugging**)
- Skills : Data Structures, Machine Learning, Data Visualization, Web Scraping
- Certifications – **Python and Data Visualization** (Issued by **Develearn Tech**)
- Courses : Python 3 programming , Python oops & function (Both from Fresco play)

PROJECT

Fake News Detector App (Group of 3)	App which helps user to detect fake news. We created our own dataset to train the model. User can also get access to all the trending news of that day. Machine Learning Algorithm – Naïve Bayes Accuracy Obtained – 87% Software Used – Anaconda(Spyder), Android Studio Programming Language Used – Python, Java, Sql
House Price Prediction	Created a ML model to predict house prices. Performed data analysis ,feature engineering and feature scaling on the dataset to get the best features to train our model Machine Learning Algorithm – Random Forest Regressor Software Used – Anaconda(Jupyter Notebook) Programming Language Used - Python
MyPortfolio	A basic website which provides access to my resume , github profile and can even contact me through email. Software Used – Atom Programming Language Used – Python,Html,CSS Web Framework Used – Django

WORK EXPERIENCE

- ASE Trainee at Tata Consultancy Services, Mumbai Aug 19 to present
Part of Bobst Account (Manufacturing Unit)
 - Coordinated with SAP ABAP team of Bobst.
 - Created few **Alv reports** as per the requirements of the ABAP team.

LANGUAGESEnglish, Hindi, Marathi : **Fluent**Konkani: **Mother-tongue**French: **Basic Knowledge**
